While reading this magazine be very, very certain you do not go past any words you do not fully understand. If the material becomes confusing or you can't seem to grasp it, there will be a word just earlier that you have not understood. Immediately go back, find the word and get it defined. There is a brief list of Scientology technology definitions on page 52. Complete definitions are to be found in the *Dianetics** and *Scientology Technical Dictionary and Modern Management Technology Defined*, both by L. Ron Hubbard.

News from the Association

International Association
of Scientologists

OFFICIAL NEWS SECTION

Official News from the Association will be published in each issue of the magazine. Reports of major actions undertaken by the Association and announcement of services to members will be found in this section of the magazine.

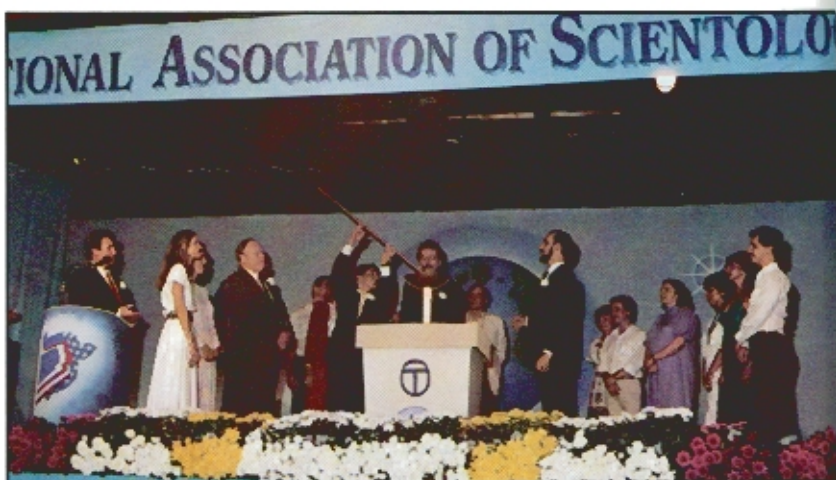

Total Freedom Event

Recently an event was held at Flag* in celebration of the legal win in Portland. This major advance in guaranteeing the future of Scientology religion has largely been due to the work and assistance of members of the International Association of Scientologists.

Senior Scientologists spoke to the public gathered at Flag AND to the thousands of other Scientologists in Boston, New York, Toronto, Los Angeles, Portland, and San Francisco who viewed this event via satellite relay.

This is the first satellite relay of an event ever for Scientology and

* Flag is a trademark and service mark owned by Religious Technology Center

Lifetime Member Mr. David Miscavige lights the torch symbolizing keeping the flame of Religious Freedom alive at the Total Freedom Event.

has been pioneered by the International Association of Scientologists. Due to the success of this, other satellite relays are planned for future Association events so that larger numbers of members can participate right at the moment of the event.

Attendees were briefed on the win that occurred in Portland as a result of members' efforts and on the plans to go forward from that win. The main message of the event was GET ACTIVE AS A SCIENTOLOGIST. The more active, practicing Scientologists in the world today, the faster we will attain our goal of a secure future.

The event was highlighted by the attendance of several long time Scientologists and Lifetime Members of the Association including David Miscavige, Norman Starkey, Marc Yager (Commanding Officer Commodore's Messenger Organization International), and Vicki Aznaran (Inspector General Religious Technology Center).

This was a very successful event celebrating a major accomplishment on the road to guaranteeing the future of Scientology philosophy on this planet.

Goals for 1985

These are the current targets

Mr. Earl Cooley, lawyer for the Church of Scientology shares his wins with Scientologists at the Total Freedom Event. At the end of this event, Mr. Cooley signed up as a Lifetime Member of the International Association of Scientologists and is now aboard. Welcome!

for the Association which all members should be working towards achieving.

1. An active paid up membership of two hundred thousand (200,000) Scientologists.
2. The Church assisted in making the target of 750 Solo NOTs, advanced spiritual healing technology for OTs completions, so that New OT VIII and New OT IX are released.
3. A safe base secured for the delivery of New OT VIII and New OT IX.

Lifetime Member Mr. Norman Starkey urges members to become active at the Total Freedom Event.

4. Every member active in a program or campaign that backs up the Church's expansion.
5. To successfully handle groups and entities that are actively threatening and attacking freedom of religion so the Scientology religion can continue to expand freely.

Major Association Accomplishments

Membership in the Association is increasing by nearly 1,000 members per month due to the work of many dedicated members. However there are still thousands of Scientologists who still need to be signed up and the assistance of every member is needed to reach the goal of 200,000 members.

Since its formation in October 1985, the Association has sponsored over 30 events around the world to brief Scientologists on the Association and Association activities.

Major legal gains are being made in court cases around the

world as the result of actions being taken by Association members. Further information on two major wins are on page 19 of this issue.

A music cassette called "The Battle of Portland" has been produced by Association members Jon Batson and the Peter Schless Band.

The Association assisted in getting this cassette produced and it is now available to Scientologists around the world.

The Association now has members in 35 countries around the world — including Ghana, Pakistan and Saudi Arabia.

We've Computerized!

The initial computerization for the International Association of Scientologists has been completed.

LRH says of computers in HCO PL 16 Feb 84 Computer Series 1 "WHAT IS A COMPUTER?":

"Given good ideas, a good heart, a worthwhile project and the addition of near instantaneous computer particle flow, the power of an organization becomes almost unlimited."

— LRH

This computerization allows rapid and accurate maintenance of our mailing list and membership rolls and audits of all membership dues paid and also allows ease in keeping members up to date on specific events relating to their area.

This computerization for the International Association of Scientologists is the result of the excellent work done by Lifetime Member Jonas Sjoblom. The Association would like to acknowledge and thank Jonas for his work which is very much appreciated.

For his assistance on the computerization, the Board of Directors of the International Association of Scientologists has awarded Jonas Sjoblom Honor

Roll status in the Association. Very Well Done Jonas!

Preparations For The New Flagship

Over 100 people have signed up to be crew on the new Flag ship — including two Scientologists from Hamburg who have full Captain's licenses and over 20 years experience at Sea.

Association Members around the world are helping locate potential crew members. Lifetime Member Ferdinand Ruegg, Executive Director of the Zurich Mission has sent in prospects including one who is a professional seaman and navigator.

A Ship TTC (Technical Training Corps) has been established at Flag for training people to deliver New OT VIII and New OT IX. People from all over the world will come to Flag for the highest quality training to deliver these new OT Levels when the ship sails.

Celebrity Scientologists and Association Members Amanda Ambrose and Michael Roberts have been very active as Field Staff Members for the Ship Donation Project. Recently Amanda and friends gave a benefit concert at Flag for the Ship Donation Project which was a success.

During the concert Amanda said, "We need this ship and it is our responsibility to make it happen." She said with a smile, "I'm also regging non-Scientologists!" It IS our responsibility as members to help secure a safe space for the delivery of New OT VIII and IX. All members can help — through their own donations, by informing their fellow Scientologists of the vital necessity for the ship, by alerting the Ship Project to people who might want to be crew members or by joining yourself.
