12 UNION WHARF
BOSTON, MASSACHUSETTS 02109

RE: L. RON HUBBARD

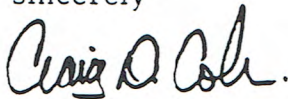

Dear Mr. Flynn

As you are probably aware of I have been contacted by several reporters from major magazines and newspapers. Recently I have been contacted by attorney generals from two states; Arizona and California. I understand and respect the strategy behind these contacts and have supported your thrust with my personal integrity and reputation besides the information that they deemed valuable enough to initiate investigation in both areas. It is unfortunate, however, that we have not met nor have I been compensated for all of my loyalty and anticipated maneuvering. I hate to use the words but I am beginning to feel a tad used at this point. However, I am aware of your money problems and do look forward to meeting you sometime in mid February as promised by you in our last phone call.

As prestated over the phone I believe that I can be of even more value to you than I already have as an investigator to unravel the macabe of financial confusion that your defendants have attempted to conceal.

I look forward to meeting you and establishing a trust relationship that will benefit me also.

sincerely

CRAIG D. COLLINS
